Then beauty is its own excuse for being.

LT.-COL. FREDERICK P. REYNOLDS ELECTED HEAD OF MEDICAL SOCIETY

Banquet and Entertainment
Closes 23rd Annual Session
of Local Organization

Lieut.-col. Frederick P. Reynolds, U. S. A., department surgeon, was elected president of the Medical Society of Hawaii at the 23rd annual meeting of the members of that organization which came to a close yesterday afternoon after a three-day session. Other officers chosen to serve during the coming year were Dr. H. P. Nottage, vice-president; Dr. F. E. Trotter, secretary; Dr. E. D. Kilbourne, treasurer, and Drs. H. V. Murray and C. B. Wood, new members of the executive committee.

The medicals who have been in attendance at the annual meeting, after laying aside the business of the session, gathered at the Country Club last night for a banquet and entertainment, having as guests of honor Governor L. E. Pinkham and E. A. Mott-Smith. Songs and delightful patter were provided by Miss Martha Golden and Mrs. Jack Le Clair, with A. R. Cunha at the piano. During the banquet toasts were in order and these were generally responded to by the guests of honor and the medicals. Governor Pinkham responded to a toast to the territory of Hawaii and E. A. Mott-Smith to "Reminiscences." Other toasts and responses were, "The American Medical Association," Dr. J. T. McDonald; "The Army," Maj. Matthew A. De Laney; "The Navy," Surgeon John O. Downey, U. S. N.; "The U. S. Public Health Service," Dr. F. E. Trotter.

Yesterday afternoon's session was given over largely to a discussion of tuberculosis and its many problems. This subject was a prominent one throughout the meeting, and was brought to the attention of the medicals yesterday by Dr. C. B. Cooper through the medium of a paper entitled, "How Can the Problem of Tuberculosis Now Confronting the Territory Be Met?" Following the reading of this paper a lengthy discussion ensued.

Doctor Cooper's answer to the question brought up in his paper is summarized up as follows:

"CASCARETS" IF COSTIVE, BILIOUS, HEADACHY AND UPSET—DIME A BOX

No odds how much your head aches, how miserable you are from constipation, indigestion, biliousness, a "Casca" tonight straightens you out by morning.

Clean your stomach, liver and bowels tonight; end the headache, biliousness, dizziness, nervousness, the sour, gassy stomach, backache and all

"Effective control of the disease can only be gained by sane legislation, giving government control, and the cooperation of all units engaged in the work. Unceasing educational efforts are most important."

"Adequate financial means to carry out dispensary, hospital, sanitarium and farm colony plans; such funds to be raised by a specific tax for this specific purpose."

"Economic management, avoiding duplication of plants and overhead charges; seeking to give patients every possible advantage in the way of climate, location and best scientific methods by treatment."

The best immediate results are to be obtained by the isolation of incurable consumptives, and sanitariums for the curable cases; by preventing the spread of infection and gradually reducing the mortality from tuberculosis. Indirectly society is paid a very handsome profit on the investment."

This Week Is Thanksgiving Week

Upward of eight million men, lying in blood and water-soaked trenches, gnawing at black bread or whatever scraps of provender may come their way, and upward of twenty million families with their homes in ruin, their livelihood gone and starvation creeping upon them—all these are going to be able to give thanks only because they are still alive.

Wouldn't it be wonderful if you, in your nice snug home, would give tangible thanks by having your turkey carried in and placed upon a new dining room table; or sitting in a new dining room chair, if you gave thanks above new, snowy linen and beautiful new dinner ware. Wouldn't it be wonderful if you went from there into your living room to listen to new records on a talking machine, or to have someone sit at a new piano or yourself sit at a new player-piano.

In short, wouldn't it be wonderful if you expressed your thanks in some real tangible way by adding to the beauty of your home something which your brains and your industry had earned and which your nation at peace had made possible.

That man is a poor citizen who lets his Thanksgiving Day go by without adding something of comfort or luxury to his home.

This paper all week will be filled with Thanksgiving values of every kind—things that will lend themselves to the enjoyment of your home and you should not waste a moment in securing what you need.

It is only in times like these that we appreciate how much our free country means to us.

Go through the advertising in this paper now and pick out whatever will add to the comfort and the luxury and the stability of your home.

PRESIDENT IS WORRYING OVER LOW REVENUE

[Associated Press by Fed. Wireless.] WASHINGTON, D. C., Nov. 24.—President Wilson is giving careful consideration to means whereby the government expenditures next year may be materially reduced, this exercise of economy being necessary because of the falling revenues due to the war in Europe. It is said that the president is aiming at the creation of a budget system, in order that the expenditures may be made to coordinate with the income.

SIEGEL SENTENCED TO FINE AND IMPRISONMENT

[Associated Press by Fed. Wireless.] GENEESE, New York, Nov. 24.—Henry Siegel, the New York merchant who has been on trial for unlawfully receiving money from his employees for deposit in his insolvent banking department, yesterday was found guilty of a misdemeanor. He was sentenced to pay a fine of \$1000 and to serve a sentence of 10 months' imprisonment in the Monroe county jail.

A stay of sentence was granted until June 14, 1915, in order to give him an opportunity to help in straightening out his tangled business affairs. He is under \$25,000 bail.

CUBA SENDS CRUISER TO PROTECT CITIZENS

[Associated Press by Fed. Wireless.] HAYANA, Cuba, Nov. 24.—At the request of the Cuban consul at Vera Cruz, who fears that disorders will follow the withdrawal of the American troops, the government yesterday dispatched the Cuban cruiser Patria to the Mexican port for the protection of Cuban citizens.

STR. HANAIE GOES ASHORE ON CALIFORNIA REEF

[Associated Press by Fed. Wireless.] SAN FRANCISCO, Cal., Nov. 24.—The steamship Hanaie, on the freight and passenger run to San Pedro, went on the rocks south of here in a dense fog last night and the vessel is breaking up. Two passengers swam ashore, carrying the news that one passenger and one member of the crew were drowned.

Five members of the life-saving crew managed to work their way out to the wrecked steamer to handle the work of rescue from the ship. A mortar gun and crew are being rushed overland from the nearest life-saving station and an attempt will be made to shoot a line out to the Hanaie.

Twelve ships, outfitted of the disaster, were standing by last night, helpless in the fog, and waiting for dawn. The only hope of rescue is from the shore. Thirty passengers and 28 members of the crew were clinging to the sloping decks of the breaking steamer last night waiting for the life-line to be sent out to them.

In its departure for San Francisco this evening the Matson Navigation steamer Lurline will take about 2000 tons of molasses supplied at Kahului. The vessel has taken a shipment of pine at the Maui port and Honolulu aggregating 9000 cases. Sugar amounting to 2100 sacks was transferred from an inter-island steamer to the Lurline. The vessel will be despatched for San Francisco at 4 o'clock tomorrow afternoon, taking a few cabin passengers.

About 70 employees have been laid off by New York city's park department.

OKLAHOMA IN GRIP OF FIERCE FOREST FIRES

[Associated Press by Fed. Wireless.] MUSKOGEE, Okla., Nov. 24.—Reports from the southeast part of the state say that forest fires are now raging in the dense timbered regions. Great efforts were made to prevent the forest fires from Arkansas spreading across the border into this state, but they were rendered useless by the high winds prevailing.

GIRLS! GIRLS! TRY IT. BEAUTIFY YOUR HAIR

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Danderine from any drug store, or a 50-cent bottle of Danderine from any drug store, and just try it.

AGUILAR SUCCEEDS FUNSTON IN CHARGE OF PORT OF VERA CRUZ

Issues Drastic Regulations and
Death Penalty For
All Offenses

[Associated Press by Fed. Wireless.] VERA CRUZ, Mexico, Nov. 24.—For the first time since April 20 the Mexican flag flew from the custom house here yesterday afternoon, after the American flag had been hauled down and the troops of Gen. Funston withdrawn aboard the transports, now bound for the United States.

ALTITUDES IN HAWAII

More than 400 datum points established by the United States Geological Survey in Hawaii, in addition to about 150 secondary elevations of well-known summits and other places of interest, are described in Bulletin 561, "Results of Spirit Leveling in Hawaii, 1910 to 1913, inclusive," which has just been issued by the Geological Survey. The work reported in the bulletin was done under the direction of R. B. Marshall, chief geographer, in cooperation with the Territory. The highest point noted in the bulletin (though not the highest point in the islands) is that known as Kaunua-kalehoohie, the highest peak in the Kohala mountains, about 512 miles from Waimea village, on the island of Hawaii, 5505 feet above mean sea level.

The topographic maps published by the survey show to the nearest foot the elevation of points within the areas mapped, but the figures given in the bulletins on spirit leveling are exact.

Gen. Candido Aguilar assumed charge of the city as soon as Gen. Funston ceased to exercise authority. Aguilar immediately issued a proclamation of the most drastic nature, declaring that he would order the execution of all persons disturbing the peace in any manner, or committing any crimes whatever, grave or small. He ordered the saloons to remain closed.

All arms are to be turned in, and all persons, including Americans, found carrying arms will be shot, according to the proclamation.

act and consequently are of considerable value to engineers and surveyors who may require some points on which to base their work. Engineers and others who have occasion to use the elevations stamped on the bench marks or shown on the survey maps should apply to the Director of the United States Geological Survey at Washington, D. C., for the adjusted values, using the markings as identification numbers only, or should consult the spirit-leveling bulletins. A copy of Bulletin No. 561 may be obtained free on application to the Director of the Survey.

Manuel Hermida, a native of Buenos Aires, Argentine, and a painter by trade, has filed in the office of the clerk of the federal court a declaration of intention to become an American citizen.

The body of Frederick Wackerhagen, a retired merchant of Fort Lee, N. J., was found beside the tracks of the West Shore railroad.
